

BSc in Computer Network & IT Security

Build and secure modern network infrastructure.

Duration	3 Years
Level	Bachelor Degree
Mode	Full-Time
Intake	—
Total fee	NPR 6,00,000

Course overview

This program prepares students to design, manage and secure computer networks. It focuses on cybersecurity, ethical hacking and IT infrastructure management for modern organizations.

Key features

- Hands-on networking labs
- Cybersecurity & ethical hacking
- Industry-focused curriculum
- Internship opportunities

Core modules

- Computer Networks
- Network Security
- Ethical Hacking
- Operating Systems
- Cloud Computing

Career opportunities

Network Administrator, Security Analyst, System Engineer and IT Support Specialist.

Why study this program?

Learn real-world networking and cybersecurity skills in high demand globally, with foundations that can lead to roles across IT companies, banks, telecom and technology firms.

Fee note: Fees and admission policies are based on the supplied CEIC website content and should be confirmed with the admissions office before enrolment.
